

★ Dark Mode

```
const themeBtn = document.getElementById('theme-btn');  
const container = ''  
let isDark = false;  
themeBtn.addEventListener('click', () => {  
  isDark = !isDark;  
  if (isDark) { true  
    container.classList.replace('bg-white')  
  }  
  else { false  
    container.classList.replace('bg-black')  
  }  
});
```

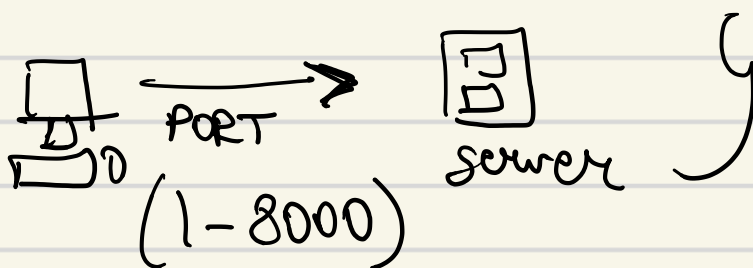

```

function ThemeSwitcher() {
  const [isDark, setIsDark] = useState(false);

  return (
    <div className { 'p-4
      ${isDark ? 'bg-black text-white' :
        'bg-white text-black'} >
      <button onClick = { () =>
        setIsDark (!isDark) } > Switch! </button>
    </div>
  );
}

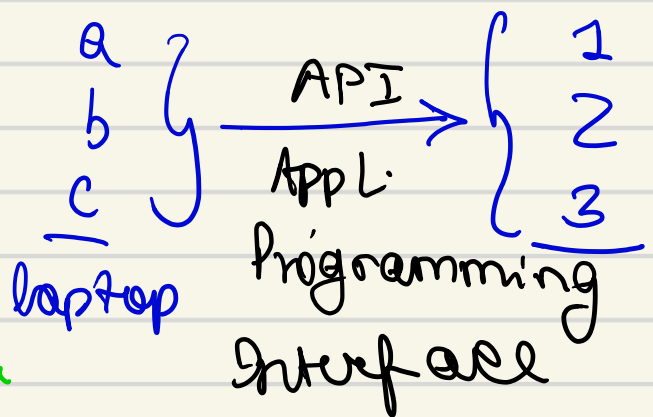

```
